

When two come together,  
the customer is the winner.

# Monark

A leading specialist supplier of high-quality spare parts for tractor units and trailers, PE Automotive has established itself as a reliable partner of the trade and its customers, including fleet and vehicle operators as well as garages.

The objective was clearly defined – the continual expansion of the range. It was time to find a suitable partner to round out the existing product portfolio and, as a full-range supplier through the newly created unit, to offer customers a comprehensive range of products from a single source, with the best value for money while maintaining the highest commitment to quality.

On 1 February 2020, this idea became reality through the merger of PE Automotive and Monark.

Member of the BPW Group 

As an expert for innovative and high-quality products in the areas of vehicle electronics, lighting and diesel injection equipment, the Monark brand has earned a strong reputation among customers.

With the newly created, comprehensive product portfolio of Monark and PE Automotive, a full-range supplier has been established in the market for repairs and maintenance at current value, opening up completely new perspectives for customers.
